

Check ID	File	Resource	Check Name	Guideline	Status
CKV_AZURE_160	/main.tf	azurerm_network_security_group.sg-automate-test	Ensure that HTTP (port 80) access is restricted from the internet		FAILED
CKV_AZURE_10	/main.tf	azurerm_network_security_group.sg-automate-test	Ensure that SSH access is restricted from the internet		FAILED
CKV_AZURE_50	/main.tf	azurerm_windows_virtual_machine.vmachine-automate-test	Ensure Virtual Machine Extensions are not Installed		FAILED
CKV_AZURE_179	/main.tf	azurerm_windows_virtual_machine.vmachine-automate-test	Ensure VM agent is installed		FAILED
CKV_AZURE_177	/main.tf	azurerm_windows_virtual_machine.vmachine-automate-test	Ensure Windows VM enables automatic updates		FAILED
CKV_AZURE_151	/main.tf	azurerm_windows_virtual_machine.vmachine-automate-test	Ensure Windows VM enables encryption		FAILED
CKV_AZURE_119	/main.tf	azurerm_network_interface.nic-automate-test	Ensure that Network Interfaces don't use public IPs		FAILED
CKV_AZURE_183	/main.tf	azurerm_virtual_network.vn-automate-test	Ensure that VNET uses local DNS addresses		PASSED
CKV_AZURE_182	/main.tf	azurerm_virtual_network.vn-automate-test	Ensure that VNET has at least 2 connected DNS Endpoints		PASSED
CKV_AZURE_9	/main.tf	azurerm_network_security_group.sg-automate-test	Ensure that RDP access is restricted from the internet		PASSED
CKV_AZURE_77	/main.tf	azurerm_network_security_group.sg-automate-test	Ensure that UDP Services are restricted from the Internet		PASSED
CKV_AZURE_118	/main.tf	azurerm_network_interface.nic-automate-test	Ensure that Network Interfaces disable IP forwarding		PASSED
CKV_AZURE_92	/main.tf	azurerm_windows_virtual_machine.vmachine-automate-test	Ensure that Virtual Machines use managed disks		PASSED
