CKV_AZURE_160	/main.tf	azurerm_network_security_group.sg-automate-test	Ensure that HTTP (port 80) access is restricted from the internet	<a href="https://docs.bridgecrew.io/docs/ensure-azure-http-port-80-access-from-the-internet-is-restricted">https://docs.bridgecrew.io/docs/ensure-azure-http-port-80-access-from-the-internet-is-restricted</a>	FAILED
CKV_AZURE_10	/main.tf	azurerm_network_security_group.sg-automate-test	Ensure that SSH access is restricted from the internet	<a href="https://docs.bridgecrew.io/docs/bc_azr_networking_3">https://docs.bridgecrew.io/docs/bc_azr_networking_3</a>	FAILED
CKV_AZURE_50	/main.tf	azurerm_linux_virtual_machine.vmachine-automate-test	Ensure Virtual Machine Extensions are not Installed	<a href="https://docs.bridgecrew.io/docs/bc_azr_general_14">https://docs.bridgecrew.io/docs/bc_azr_general_14</a>	FAILED
CKV_AZURE_179	/main.tf	azurerm_linux_virtual_machine.vmachine-automate-test	Ensure VM agent is installed		FAILED
CKV_AZURE_119	/main.tf	azurerm_network_interface.nic-automate-test	Ensure that Network Interfaces don't use public IPs	<a href="https://docs.bridgecrew.io/docs/ensure-that-network-interfaces-dont-use-public-ips">https://docs.bridgecrew.io/docs/ensure-that-network-interfaces-dont-use-public-ips</a>	FAILED
CKV_AZURE_183	/main.tf	azurerm_virtual_network.vn-automate-test	Ensure that VNET uses local DNS addresses		PASSED
CKV_AZURE_182	/main.tf	azurerm_virtual_network.vn-automate-test	Ensure that VNET has at least 2 connected DNS Endpoints		PASSED
CKV_AZURE_9	/main.tf	azurerm_network_security_group.sg-automate-test	Ensure that RDP access is restricted from the internet	<a href="https://docs.bridgecrew.io/docs/bc_azr_networking_2">https://docs.bridgecrew.io/docs/bc_azr_networking_2</a>	PASSED
CKV_AZURE_77	/main.tf	azurerm_network_security_group.sg-automate-test	Ensure that UDP Services are restricted from the Internet	<a href="https://docs.bridgecrew.io/docs/ensure-that-udp-services-are-restricted-from-the-internet">https://docs.bridgecrew.io/docs/ensure-that-udp-services-are-restricted-from-the-internet</a>	PASSED
CKV_AZURE_118	/main.tf	azurerm_network_interface.nic-automate-test	Ensure that Network Interfaces disable IP forwarding	<a href="https://docs.bridgecrew.io/docs/ensure-that-network-interfaces-disable-ip-forwarding">https://docs.bridgecrew.io/docs/ensure-that-network-interfaces-disable-ip-forwarding</a>	PASSED
CKV_AZURE_1	/main.tf	azurerm_linux_virtual_machine.vmachine-automate-test	Ensure Azure Instance does not use basic authentication(Use SSH Key Instead)	<a href="https://docs.bridgecrew.io/docs/bc_azr_networking_1">https://docs.bridgecrew.io/docs/bc_azr_networking_1</a>	PASSED
CKV_AZURE_178	/main.tf	azurerm_linux_virtual_machine.vmachine-automate-test	Ensure linux VM enables SSH with keys for secure communication		PASSED
CKV_AZURE_149	/main.tf	azurerm_linux_virtual_machine.vmachine-automate-test	Ensure that Virtual machine does not enable password authentication	<a href="https://docs.bridgecrew.io/docs/ensure-azure-virtual-machine-does-not-enable-password-authentication">https://docs.bridgecrew.io/docs/ensure-azure-virtual-machine-does-not-enable-password-authentication</a>	PASSED
CKV_AZURE_92	/main.tf	azurerm_linux_virtual_machine.vmachine-automate-test	Ensure that Virtual Machines use managed disks	<a href="https://docs.bridgecrew.io/docs/ensure-that-virtual-machines-use-managed-disks">https://docs.bridgecrew.io/docs/ensure-that-virtual-machines-use-managed-disks</a>	PASSED
